

-2-

REMARKS

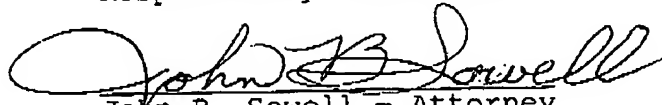

Applicant respectfully traverses the requirement for restriction. There is only one invention claimed. The manner in which it is claimed and the fact the Examiner has to search more than one class or subclass is not proper grounds for restriction.

(1) The process CANNOT be used to make other materially different products. Note that the blade is ground to balance it since it is indeed flexible and inherently unbalanced when made by the process claimed.

(2) The applicant is claiming a dicing saw blade and the product claimed has no known use other than a dicing saw blade.

Reconsideration of the requirements for restriction and withdrawal is requested.

Respectfully submitted,

John B. Sowell - Attorney
